THE NORTH AMERICAN MEAT INSTITUTE ENVIRONMENTAL ACHIEVEMENT AWARDS

The NAMI Environmental Achievement Awards are won by those member companies that go beyond environmental compliance by designing and successfully implementing an innovative plant upgrade or environmental program.

In order to be eligible for the NAMI Environmental Achievement Award, all participants must submit supporting data on natural resources, financial or other metrics to document the achievements claimed in the submitted application. In addition, all applicants must have achieved and still be eligible for one of the four tiers of the Environmental Recognition Program Awards.

THE NORTH AMERICAN MEAT INSTITUTE ENVIRONMENTAL RECOGNITION

The North American Meat Institute has developed for its members' use a series of environmental tools that may be adopted to address specific plant issues.

The Environmental Recognition Award Program is a four-tier, voluntary environmental management system toolbox, coupled with an awards program that ranges from simple to complex.

THE TIERED APPROACH

The North American Meat Institute developed a four-tiered environmental recognition program to help increase EMS development and implementation throughout the meat and poultry industry, a proven method to achieve continual environmental improvement.

The program begins in Tier 1 with a basic package of environmental policy statements and environmental policy compliance criteria, advances through more comprehensive requirements in Tier 2, incorporates a complete EMS model developed in cooperation with the EPA as Tier 3, and culminates with an ISO 14001 EMS as Tier 4.
