AWARDS PRESENTED BY:

J. PATRICK BOYLE, PRESIDENT & CEO,
AMERICAN MEAT INSTITUTE

THE AMERICAN MEAT INSTITUTE WORKER SAFETY RECOGNITION

The primary program goals are to motivate participants to improve their safety performance through the establishment of sound safety and health programs at the plant level and to recognize those plants that have achieved a high level of safety performance as part of the continuing effort to reduce occupational injury and illness.

In addition, the program can boost employee morale, reduce expenses associated with injuries and illness in the workplace and enhance the meat and poultry industry's overall image regarding employee safety and health.

AWARDS EXPLANATION

The various levels of awards that may be earned are based on a evaluation of each eligible plant's actual safety performance as well as its implementation of various key components of an effective safety and health program as measured by the safety program questionnaire. Of the 1,500 points available, 900 or 60 percent may be earned based on the outcome of a statistical analysis of the plant's injury and illness data performed by the National Safety Council staff. The analysis includes an evaluation of both the Total Recordable Cases rate and the rate for Cases With Days Away from Work, Job Transfer, or Restriction (DART). The two rates will each be worth up to 450 points (one half) of the total points available for safety performance.

THE AMERICAN MEAT INSTITUTE ENVIRONMENTAL ACHIEVEMENT AWARDS

The AMI Environmental Achievement Awards are won by those member companies that go beyond environmental compliance by designing and successfully implementing an innovative plant upgrade or environmental program.

In order to be eligible for the AMI Environmental Achievement Award, all participants must submit supporting data on natural resources, financial or other metrics to document the achievements claimed in the submitted application. In addition, all applicants must have achieved and still be eligible for one of the four tiers of the Environmental Recognition Program Awards.

THE AMERICAN MEAT INSTITUTE ENVIRONMENTAL RECOGNITION

The American Meat Institute has developed for its members' use a series of environmental tools that may be adopted to address specific plant issues.

The Environmental Recognition Award Program is a four-tier, voluntary environmental management system toolbox, coupled with an awards program that ranges from simple to complex.

THE TIERED APPROACH

The American Meat Institute developed a four-tiered environmental recognition program to help increase EMS development and implementation throughout the meat and poultry industry, a proven method to achieve continual environmental improvement.

The program begins in Tier 1 with a basic package of environmental policy statements and environmental policy compliance criteria, advances through more comprehensive requirements in Tier 2, incorporates a complete EMS model developed in cooperation with the EPA as Tier 3, and culminates with an ISO 14001 EMS as Tier 4.
