

# Health and Wellness Award

## COMMUNITY WELLNESS

- Fighting food insecurity at home and nationwide is at the core of our giving priorities. In 2024, we donated 53,844 pounds of food products equaling 44,870.33 meals and \$935,894 worth to food network partners in the United States.
- Locally, when a tornado came through Elkhorn, we mobilized nearly 60 of our team members who prepared and served hot, fresh meals to 1,500 affected people, giving 207.5 volunteer hours.
- On Hunger Action Day, we created orange "We're doing our part" logo stickers, gave away orange bandanas, and gave our employees Steaks for Good t-shirts to honor the day. Our president and CEO was at the forefront of our group photo for Hunger Action Awareness Day and personally went multiple times to be part of the larger food deliveries to the local food bank throughout the year.
- Team members volunteered at Food Bank for the Heartland packing easy-to-prepare or ready-to-eat nutritious food for their BackPack Program that is distributed to 8,700 children in 237 schools in Nebraska and western Iowa.
- We provide quarterly product donations to our local Food Bank and, in turn, disperse them to over 500 network partners of pantries, churches, and after-school programs across Nebraska and Eastern Iowa.
