

# Environmental Achievement Award

## ENERGY CONSERVATION CATEGORY:

### CIRCULAR ECONOMY PROJECT - INTEGRATED ENERGY SYSTEM

Our main achievement: Reduce GHG, save money, and improve the community all in one project

- 4,000 tCO<sub>2</sub> reduction per year
- Savings of 245,800 USD for natural gas replacement and thermal energy recovery
- Reducing odors and eliminating unsightly steam plumes

By valorizing our byproducts, we close the cycle from our entire process, increasing our energy efficiency.
